### **Why You Should Export Your Excel Contacts to WhatsApp? -**

There are several reasons why users might need to add friends from Excel to WhatsApp. WhatsApp is a chat app that works on smartphones that run on Blackberry, Android, iOS, and Windows OS. WhatsApp is used by everyone to send and receive texts, videos, photos, documents, and more. Most users want to add friends from Excel to WhatsApp. To do this, users must first change their Excel data to a VCF file type, which WhatsApp can read.

### **Export Excel Contacts to WhatsApp Manually**

This is not a straight way to [import contacts from Excel to WhatsApp](#). If users want to use the manual method, they will need to take these steps to import a VCF file into WhatsApp:-

#### **Step 1: Add the VCF file to WhatsApp -**

First, since the Excel contacts are in a VCF file, it's easy to add them to the PC WhatsApp app.

- Should you want to use WhatsApp on your computer, you need to have "Bluestacks App Player Software" set up.
- After that, open it and click on the "WhatsApp" button to move on.
- It's now time to download and install WhatsApp on your computer. You will then need to add your "new or existing" Google account.
- Once your Google account is set up, click on the "WhatsApp" button in Bluestacks to go to the Play Store and download the app.
- Once it was done, WhatsApp was installed correctly. Please set it up by giving your "Mobile Number" so that a verification code can be sent to your phone.
- After your account has been fully approved, you can set up your profile by adding a "Profile Picture" and a "Username."
- You will see WhatsApp after it has been successfully set up, and it will automatically add some contacts from your Google account.
- Now, you need to copy the Excel contacts that have been converted to VCF format and drag them

to the "Shared Folder" path. By default, a folder that is shared is generated on the pointed out path.

### **An Automated Way to Add Numerous contacts from Excel to WhatsApp -**

We already know that there isn't a manual way, but if you truly would like to do one, here it is. So, use the step above, which is longer and harder for people who aren't tech-savvy. Users also want an easy and straightforward way to do it. Afterward, use the **DataVare [Excel to VCF Converter](#)** Software to transfer several Excel contacts to WhatsApp without any issues.

This tool makes the job easy and quick for users who aren't tech-savvy as well as those who are. It lets you save Excel files as vCard files. For Windows 11, 10, 8, 7, XP, and Vista, it works. This tool gives you choices for field mapping, like Excel column mapping and vCard field mapping. The software is made with an interface, so you don't need to know much about computers to use it.

Now, this is how software that lets you import contacts from Excel to WhatsApp works. So that the solution is easy, let's look at how it works -

A brief Overview of How the application works? -

### **Following the steps listed below to use software to turn numerous Excel contacts into WhatsApp contacts. Take one step at a time -**

- Get the software, run it on your computer, and then click on Browse.
- Select "export vCard from Excel, PST, MSG, OST, etc from given multiple options.
